Brief Presentations from HHS Leaders

Listening Session

Healthcare System
Executive Leaders and
Patient & Family Advocates

Goal

- Provide feedback to HHS leadership on how to make the national Action Alliance to Advance Patient Safety most effective

Plan

- Executive leaders will respond to three questions
 - Please keep answers to under one minute to allow everyone to be heard
- Patient & Family Advocates will share their perspectives after each round of responses
- Note: All questions will soon be posted as an HHS Request for Information (RFI) so that all stakeholders will have the opportunity to contribute to the development of the Action Alliance

Question 1

What are the main challenges your system is facing in meeting your commitments to advancing patient safety as you emerge from the pandemic?

Question 2

What can HHS bring to the Action Alliance in terms of coordination, alignment, tools, training, and non-financial resources to support the effectiveness of the Action Alliance in assisting healthcare delivery systems in advancing patient and healthcare worker safety?

Question 3

How can the Action Alliance most effectively support your organization in advancing patient safety? Are there specific priorities for your system or settings of care?

Thank You

Please consider responding to the
upcoming HHS Request for Information

and

joining the Action Alliance to Advance
Patient Safety in 2023
