

AHRQ Research Summit Wrap-up

Paul Epner

September 28, 2016

SOCIETY to
IMPROVE
DIAGNOSIS in
MEDICINE

Agenda

- Reflections
- The Path Forward

The Path Forward

- A Look Back
- Resources & Forums – Building a Collaborative Network
 - SIDM /DEM & Research & Patient Summits
 - CID and their organizational meetings
 - Government Partners (AHRQ, CDC, WHO, and)
- A Look Forward

Society to Improve Diagnosis in Medicine

- **Vision**

Creating a world where no patients are harmed by diagnostic error.

- **Mission**

The Society catalyzes and leads change to improve diagnosis and eliminate harm, in partnership with patients, their families, the healthcare community, and every interested stakeholder.

www.ImproveDiagnosis.org

Coalition to Improve Diagnosis (CID)

- CID aims to bring much-needed attention, awareness and action to diagnostic error.
- Members are organizations who commit to an individual action and participation in collective actions
- Collective actions
 - Research advocacy
 - Tool identification, evaluation and dissemination
 - Healthcare professional and patient awareness

CID Organizational Members

- ABIM Foundation*
- Alliance for Academic Internal Medicine
- American Academy of Family Physicians
- American Academy of Pediatrics
- American Association of Nurse Practitioners*
- American Board of Internal Medicine*
- American Board of Medical Specialties*
- American College of Emergency Physicians*
- American College of Physicians*
- American Society for Healthcare Risk Management*
- Association of American Medical Colleges
- Association of Clinical Scientists
- Consumers Advancing Patient Safety*
- Institute for Healthcare Improvement
- Intermountain Healthcare
- The Leapfrog Group*
- Maryland Patient Safety Center
- Massachusetts Coalition for the Prevention of Medical Errors
- Midwest Alliance for Patient Safety
- National Association of Pediatric Nurse Practitioners
- National Partnership for Women and Families*
- National Patient Safety Foundation*
- Society of Hospital Medicine
- Society to Improve Diagnosis in Medicine*
- Veterans Health Administration
- Agency for Healthcare Research and Quality
- Centers for Disease Control and Prevention

*Steering Committee

Research Advocacy

- Objectives - Develop an advocacy platform to secure funding for critical diagnostic errors research, to include:
 - Patient Stories
 - Key Gaps in Measurement and Accountability
 - Cross-Agency Unified Research Agenda and Funding Calls
- Deliverables
 - Platform Foundation and Partners including white paper
 - Advocacy Strategy
 - Advocacy Materials

Tool Identification, Evaluation and Dissemination

- Objective - Identify and disseminate effective tools for improving diagnostic performance and reducing harm associated with diagnostic error.
- Deliverables
 - Environmental scan to identify relevant, existing tools
 - Classification system for tools
 - Evaluation framework
 - Website for dissemination
 - System for collecting feedback on tool use and effectiveness

Awareness Campaign

- Objectives

- Drive awareness and attention to the problem of diagnostic error in an effort to put diagnostic error prominently on the nation's health radar
- Drive engagement intended to support strategies for improvement among consumers/patients and their families and clinicians/healthcare professionals
- Create a receptive environment for the Coalition's other actions including the individual efforts by the coalition members.

- Deliverable (Year One)

- Developed, tested and refined campaign messages and supporting materials.

Is There a Global Challenge?

WHO Global Consultation

Setting Priorities for Global Patient Safety

26-28 September 2016
Florence, Italy
