

Table VII.B.1 – Distribution of numbers of Chronic Condition Indicators per patient and adverse events across sites based on GAPPS study analytic sample (n= 3,442)

Chronic Condition Indicators	n (%)	AE rate	P-Value
0 body system	1,935 (56.2%)	0.07	Reference
1 body system	1,067 (31.0%)	0.12	<0.001
2 body systems	315 (9.2%)	0.25	<0.001
3 or more body systems	125 (3.6%)	0.27	<0.001

Table VII.B.2 – Analysis of differences in adverse event rates on Chronic Condition Indicators, controlling for length of hospitalization, based on GAPPS study analytic sample (n= 3,442)

Chronic Condition Indicators (CCI)	RR^a (95% CI^b)	P-Value
0 body system	Reference	
1 body systems	0.97 (0.76, 1.23)	0.78
2 body systems	1.71 (1.29, 2.26)	<0.001
3 or more body systems	1.69 (1.16, 2.46)	0.01

^a *Relative Risk Estimate*

^b *Confidence Interval*
