

**Table VII.C.1 – Distribution of insurance types and adverse events across sites based on GAPPS study analytic sample (n = 3,151)**

<b>Insurance</b>	<b>n (%)</b>	<b>AE rate</b>	<b>P-Value</b>
Medicaid	1,216 (38.6%)	0.14	Reference
Private	1,833 (58.2%)	0.10	<0.001
No Insurance	102 (3.2%)	0.04	0.001

**Table VII.C.2 – Analysis of differences in adverse event rates on insurance status, controlling for Chronic Condition Indicators and length of hospitalization, based on GAPPS study analytic sample (n = 3,151)**

<b>Insurance</b>	<b>RR<sup>a</sup> (95% CI<sup>b</sup>)</b>	<b>P-Value</b>
Medicaid	Reference	
Private	0.96 (0.78, 1.18)	0.69
No Insurance	0.67 (0.25, 1.76)	0.42

<sup>a</sup> *Relative Risk Estimate*

<sup>b</sup> *Confidence Interval*
