

**Table 4. Comparison of Measure Calculations for Analyst 1 vs. Analyst 2**

Analyst 1		2012			2013		
	Numerator	Denominator of eligible children	Measure Result (per 1,000 children)	Numerator	Denominator of eligible children	Measure Result (per 1,000 members)	
Child/Adol Psych	97	1,033,560	0.094	110	1,028,252	0.107	
DBP/NDD	28	1,033,560	0.027	26	1,028,252	0.025	
Combined	125	1,033,560	0.121	136	1,028,252	0.132	
Analyst 2		2012			2013		
	Numerator	Denominator of eligible children	Measure Result (per 1,000 children)	Numerator	Denominator of eligible children	Measure Result (per 1,000 members)	
Child/Adol Psych	100	1,033,584	0.097	117	1,028,949	0.114	
DBP/NDD	29	1,033,584	0.028	27	1,028,949	0.026	
Combined	129	1,033,584	0.125	144	1,028,949	0.140	

Note: DBP = developmental-behavioral pediatricians; NDD = neurodevelopmental disabilities pediatricians.

**Table 5. Source of Physician Specialty Identification**

Specialty	Number Unique Physicians Identified (2012 and/ or 2013)	Number (%) Identified in Both NPPES and State Taxonomy Codes	Number (%) Identified in NPPES Only	Number (%) Identified in State Taxonomy Codes Only
Child/Adol Psychiatrists	123	68 (55%)	38 (31%)	17 (14%)
DBP/NDD Pediatricians	29	22 (76%)	4 (14%)	3 (10%)

Note: DBP=developmental-behavioral pediatricians; NDD=neurodevelopmental disabilities pediatricians.

**Table 6. Proportion of Outpatient Visits with Medicaid-Enrolled Children that Were Specialty-Related in 2012 and/or 2013**

Specialty	Number Unique Physicians	≥90% of Visits Specialty-related	70%-89% of Visits Specialty-related	50%-69% of Visits Specialty-related	<50% of Visits Specialty-related
Child/Adol Psychiatrists	123	118 (96%)	3 (2%)	0%	2 (2%)
DBP/NDD Pediatricians	29	12 (41%)	2 (7%)	3 (10%)	12 (41%)

Note: DBP=developmental-behavioral pediatricians; NDD=neurodevelopmental disabilities pediatricians.

**Table 7. Number of Additional Specialists Identified Through Alternate Source**

Additional Physician Identified	Total Number Unique Physicians 2012 Identified 2012-13		
	2012	2013	2012-13
Child/Adol Psych	48	52	56
DBP/NDD	21	21	22

Note: DBP=developmental-behavioral pediatricians; NDD=neurodevelopmental disabilities pediatricians.

**Table 8. Impact of Additional Specialty Identification Data Source on Measure Results (Rates per 1,000 Members)**

	Initial Measure Result		Add-MD Measure Result		Difference (Add-MD – Initial)	
	2012	2013	2012	2013	2012	2013
Child/Adol Psych	0.094	0.107	0.140	0.158	0.046	0.051
DBP/NDD	0.027	0.025	0.047	0.046	0.020	0.021
Combined	0.121	0.132	0.188	0.203	0.067	0.071

Note: DBP=developmental-behavioral pediatricians; NDD=neurodevelopmental disabilities pediatricians.

**Table 9. Proportion of Outpatient Visits with Medicaid-enrolled Children that Were Specialty-Related; Additional Physicians Identified 2012 and/or 2013 Using an Alternate Data Source**

Specialty	Number Unique Physicians	≥90% of Visits Specialty-related	70%-89% of Visits Specialty-related	50%-69% of Visits Specialty-related	<50% of Visits Specialty-related
Child/Adol Psychiatrists	56	54 (96%)	0%	0%	2 (4%)
DBP/NDD pediatricians	22	1 (4.5%)	1 (4.5%)	1 (4.5%)	19 (86%)

Note: DBP=developmental-behavioral pediatricians; NDD=neurodevelopmental disabilities pediatricians.
