

## VI.B. Validity - Tables

**Table 1. Multiple Concurrent Antipsychotic Use and Behavioral Health Hospitalizations for General Population of Children and Adolescents**

State	Percentage of children on two or more concurrent antipsychotics for longer than 90 days	Percentage of children with a behavioral health hospitalization
KY	2.85%	8.86%
AZ	3.03%	8.36%
RI	3.30%	19.46%
NM	4.13%	3.21%
IN	5.74%	9.80%
MO	6.55%	22.71%
NY	7.05%	8.04%
GA	7.69%	5.15%
CA	7.70%	11.88%
MI	8.05%	1.93%
KS	9.44%	16.36%
Total	6.64%	9.81%
<b>Correlation</b>		<b>0.00758</b>

**Table 2. Multiple Concurrent Antipsychotic Use and Behavioral Health Hospitalizations for Children and Adolescents in Foster Care**

State	Percentage of children on two or more concurrent antipsychotics for longer than 90 days	Percentage of children with a behavioral health hospitalization
AZ	1.88%	5.0%
KY	2.94%	11.1%
NM	4.36%	2.4%
RI	4.46%	24.0%
CA	7.07%	11.4%
IN	8.22%	10.7%
MO	9.17%	30.2%
MI	9.53%	1.7%
GA	10.05%	5.2%
KS	10.56%	19.3%
Total	7.87%	12.35%
<b>Correlation</b>		<b>0.1899</b>
