

Table 13: Unadjusted FECC quality indicator scores by metropolitan statistical area (MSA)

Indicator	Indicator ID	Does not live in MSA (N=217)	Lives in MSA (n=625)
Care Coordination Services			
Has care coordinator	FECC-1	73.5	69.8
Access to care coordinator	FECC-2	97.5	96.1
Care coordinator helped to obtain community services	FECC-3	46.4	54.3
Care coordinator contact in the last 3 months	FECC-4	42.4	49.8
Care coordinator asked about concerns and health changes	FECC-5	78.7	82.1
Care coordinator asked about progress towards goals	FECC-6	100.0	81.9
Care coordinator assisted with specialist service referrals	FECC-7	71.9	69.5
Care coordinator was knowledgeable, supportive and advocated for child's needs	FECC-8	85.0	85.0
Caregiver has access to medical interpreter when needed	FECC-15	81.8	85.5
Messaging			
Appropriate written visit summary content	FECC-9	81.0	82.1
Written visit summary was useful and easy to understand	FECC-10	87.9	85.5
Invited to join hospital rounds	FECC-11	56.8	50.3
Appropriate written hospitalization summary content	FECC-12	91.7	88.2
Written hospitalization summary was easy to understand	FECC-13	91.7	90.7
Caregiver has access to electronic health record	FECC-19	41.4	39.4

Electronic health record has immunization and medication information	FECC-20	72.9	73.0
----------------------------------------------------------------------	----------------	------	------

Health care provider communicated with school staff about child's condition	FECC-14	33.3	28.6
-----------------------------------------------------------------------------	----------------	------	------

Protocols/Plans

Child has shared care plan	FECC-16	40.0	48.8*
----------------------------	----------------	------	-------

Child has written transition plan	FECC-18	2.9	13.4
-----------------------------------	----------------	-----	------

Child has emergency care plan	FECC-17	14.4	26.2***
-------------------------------	----------------	------	---------

Comparing groups using linear or logistic regression: *p<0.05 **p<0.01 ***p<0.001

Table 14: FECC quality indicator scores stratified by living in a metropolitan statistical area (MSA), adjusted for state, child age, and caregiver age

Indicator	Indicator ID	Does not live in MSA (N=217)	Lives in MSA (n=625)
Care Coordination Services			
Has care coordinator	FECC-1	73.0	69.9
Access to care coordinator	FECC-2	96.7	96.4
Care coordinator helped to obtain community services	FECC-3	44.3	52.5
Care coordinator contact in the last 3 months	FECC-4	43.1	49.4
Care coordinator asked about concerns and health changes	FECC-5	79.4	82.7
Care coordinator asked about progress towards goals	FECC-6	N/A: All cases not in an MSA have a score of 100 on this measure	N/A
Care coordinator assisted with specialist service referrals	FECC-7	71.3	69.4
Care coordinator was knowledgeable, supportive and advocated for child's needs	FECC-8	84.4	84.4
Caregiver has access to medical interpreter when needed	FECC-15	83.7	85.2
Messaging			
Appropriate written visit summary content	FECC-9	80.7	82.2
Written visit summary was useful and easy to understand	FECC-10	88.3	85.9
Invited to join hospital rounds	FECC-11	58.6	51.6
Appropriate written hospitalization summary content	FECC-12	91.7	87.8

Written hospitalization summary was easy to understand	FECC-13	91.5	90.6
Caregiver has access to electronic health record	FECC-19	44.6	37.3
Electronic health record has immunization and medication information	FECC-20	71.8	74.3
Health care provider communicated with school staff about child's condition	FECC-14	35.1	28.6

Protocols/Plans

Child has shared care plan	FECC-16	40.9	49.1
Child has written transition plan	FECC-18	N/A: All WA cases with available MSA info scored 0 on this measure	N/A
Child has emergency care plan	FECC-17	14.7	25.7**

Comparing groups using linear or logistic regression: *p<0.05 **p<0.01 ***p<0.001
