Dr. Dougherty:

CHIPRA PEDIATRIC QUALITY MEASURES PROGRAM (PQMP) CANDIDATE MEASURE SUBMISSION STATEMENT
OF ACKNOWLEDGEMENT

The Children's Hospital of Philadelphia (CHOP) Pediatric Quality Measures Program (PQMP) Center of Excellence (CoE) understands that should the U.S. Department of Health and Human Services (HHS) accept the measure for the 2014 and/or 2015 Improved Core Measure Sets, full measure specifications for the accepted measure will be subject to public disclosure (e.g., on the Agency for Healthcare Research and Quality (AHRQ) and/or Centers for Medicare and Medicaid Services (CMS) websites), except that potential measure users will not be permitted to use the measure for commercial use. Furthermore, the CHOP PQMP CoE is aware that AHRQ expects that measures and full measure specifications will be made reasonably available to all interested parties. The CHOP PQMP CoE is cognizant of the following: "Full measure specifications" is defined as all information that any potential measure implementer will need to use and analyze the measure, including use and analysis within an electronic health record or other health information technology; and "commercial use" refers to any sale, license or distribution of a measure for commercial gain, or incorporation of a measure into any product or service that is sold, licensed or distributed for commercial gain, even if there is no actual charge for inclusion of the measure.
