

Overview of AHRQ's Patient Safety Priorities

Jeff Brady, MD, MPH

Director, Center for Quality Improvement and Patient Safety,
Agency for Healthcare Research and Quality (AHRQ)

Rear Admiral, Assistant Surgeon General, U.S. Public Health Service

AHRQ's Core Competencies

- **Research:** Invest in research and evidence to make health care safer and improve quality.
- **Practice Improvement:** Create tools for health care professionals to improve care for their patients.
- **Data & Analytics:** Generate measures and data to track and improve performance, and evaluate progress of the US health care system.

AHRQ Patient Safety Priorities

- Focus on areas of greatest impact
- Extend patient safety improvement to all settings
- Prevent HAIs, reduce antibiotic resistance
- Build capacity in the health care system to accelerate safety improvements
- Improve communication and engagement between clinicians and patients
- Make the safe thing the easy thing to do

National Steering Committee on Patient Safety

- AHRQ is co-leading with the Institute for Healthcare Improvement (IHI)
- Will serve as a central body to galvanize stakeholders and act as a focal point to prioritize patient safety efforts
- Main goal is to create a national action plan for patient safety
 - ▶ Will begin by focusing on foundational issues such as leadership and culture
- AHRQ's SOPS Program and Action Planning Tool aligns with these efforts
