

# **Workplace Safety Supplemental Item Set for the SOPS Nursing Home Survey**

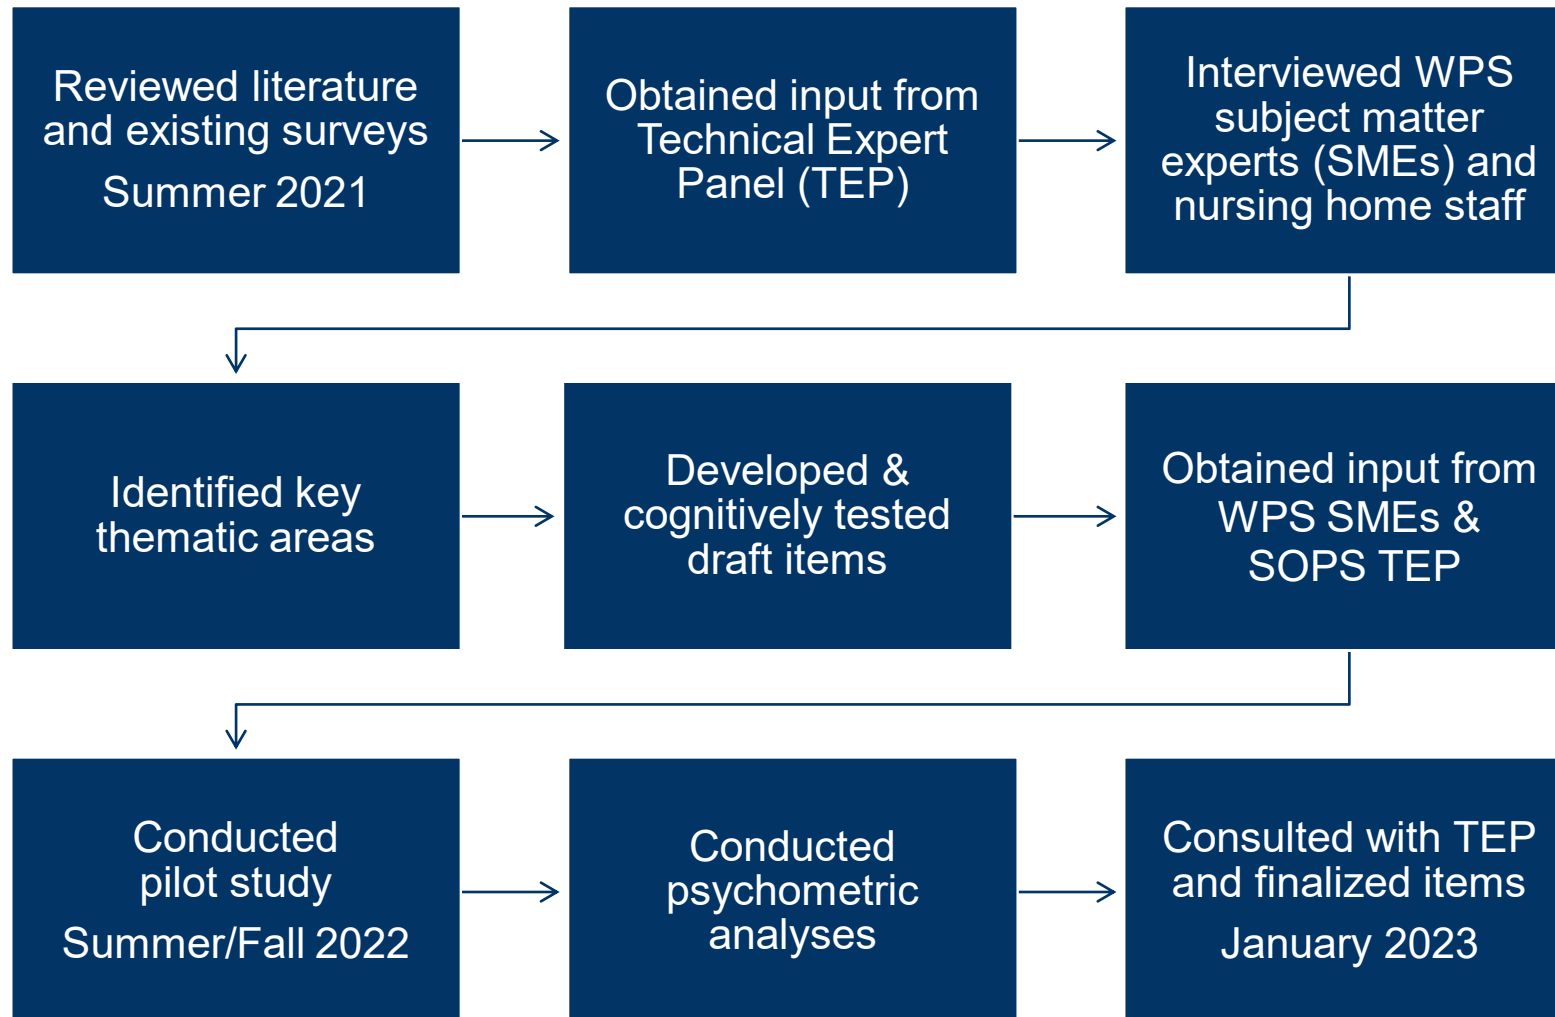

**Naomi Yount, PhD**  
**Senior Study Director**  
**Westat**

# Workplace Safety Supplemental Item Set

- Designed as a supplemental item set that can be added toward the end of the SOPS Nursing Home Survey
- Assesses the extent to which the organizational culture supports workplace safety for nursing home staff

# Survey Development Process

# What areas of workplace safety are assessed?

- Six composite measures assessing specific areas of nursing home workplace safety:
  1. Protection from Workplace Hazards (4 items)
  2. Moving, Transferring, or Lifting Residents (3 items)
  3. Addressing Inappropriate Resident Behavior Toward Staff (3 items)
  4. Interactions Among Staff (2 items)
  5. Supervisor Support for Workplace Safety (3 items)
  6. Management Support for Workplace Safety (3 items)

# Additional Measures

- Single Item Measures
  - ▶ Workplace Safety Reporting
  - ▶ Work Stress/Burnout
  - ▶ Overall Rating on Workplace Safety for Staff
- Additional Background Questions
  - ▶ Job Satisfaction
  - ▶ Intentions to Leave Nursing Home
- Total Questions: 23

# Pilot Study in Nursing Homes

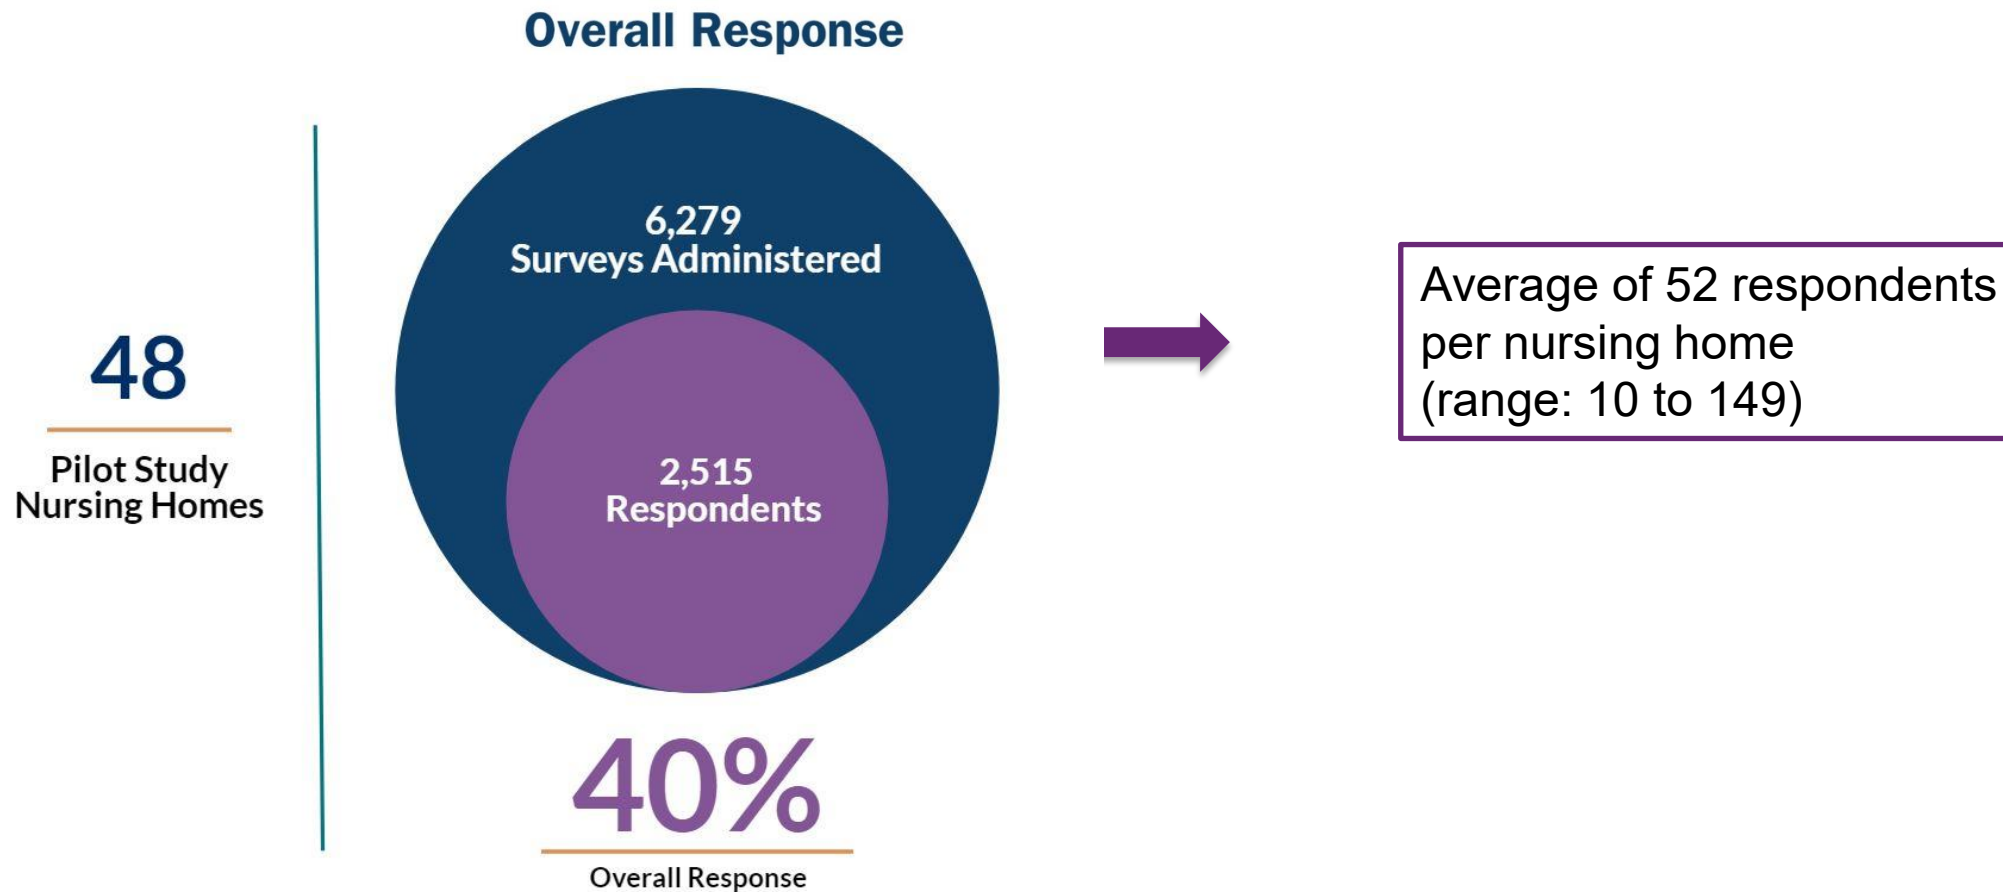

To test the new workplace safety items in nursing homes

To conduct psychometric analysis of the pilot results to examine the reliability and construct validity of the items

# Pilot Study

- Web or paper survey to all staff

# Characteristics of Respondents

- **30%** were Nursing Assistants/Aides
- **74%** worked on the day shift
- **71%** were satisfied or very satisfied with their jobs
- **71%** did not intend to leave their nursing homes within the next year

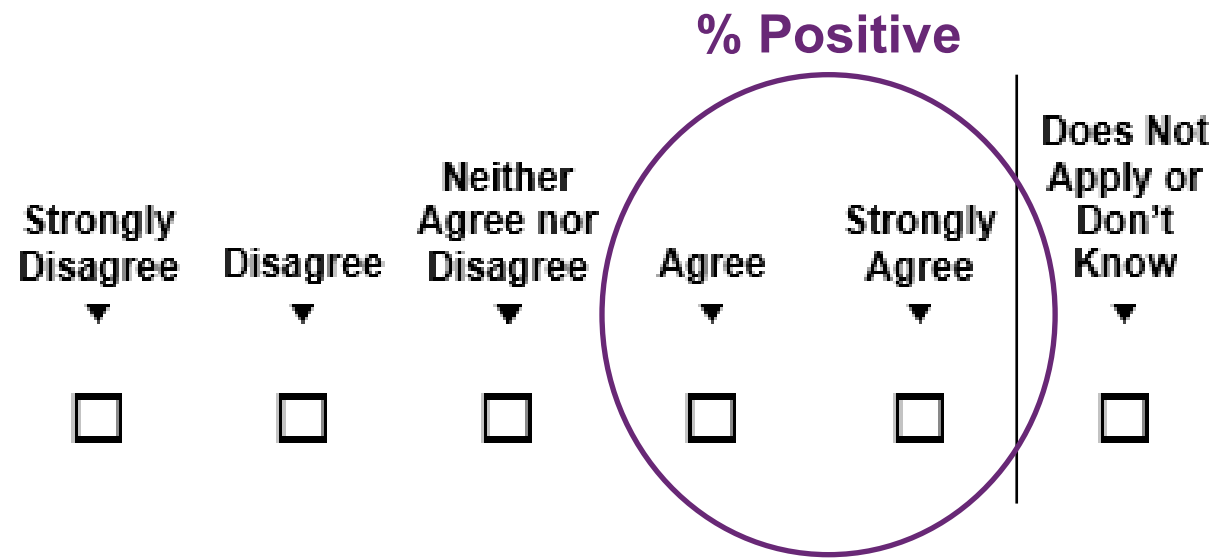

# What's a "percent positive score"?

- Positively worded survey item:

*Staff use PPE appropriately.*

# What's a "percent positive score"?

- Negatively worded survey item:

*Staff are rude to other staff in this nursing home.*

# Composite Measure Results

## Average % Positive Response

# Moving, Transferring, or Lifting Residents

## Average % Positive Response

Equipment or assistive devices are available when needed to help move, transfer, or lift residents

87

Equipment and assistive devices are in good working condition when needed to help move, transfer, or lift residents

83

Staff use equipment or assistive devices when needed to help move, transfer, or lift residents

92

**Composite Measure Average**

87

# Moving, Transferring, or Lifting Residents

“We need some new lift[s]. The one we [have sometimes tilts] over when we try to get a resident up.”

“Some of the stand aids tip... There are hooks in residents’ bathrooms that I’ve hit with my arms or even back more times than I can remember.”

# Protection From Workplace Hazards

There are good procedures to protect staff from contagious diseases, body fluids, or hazardous materials

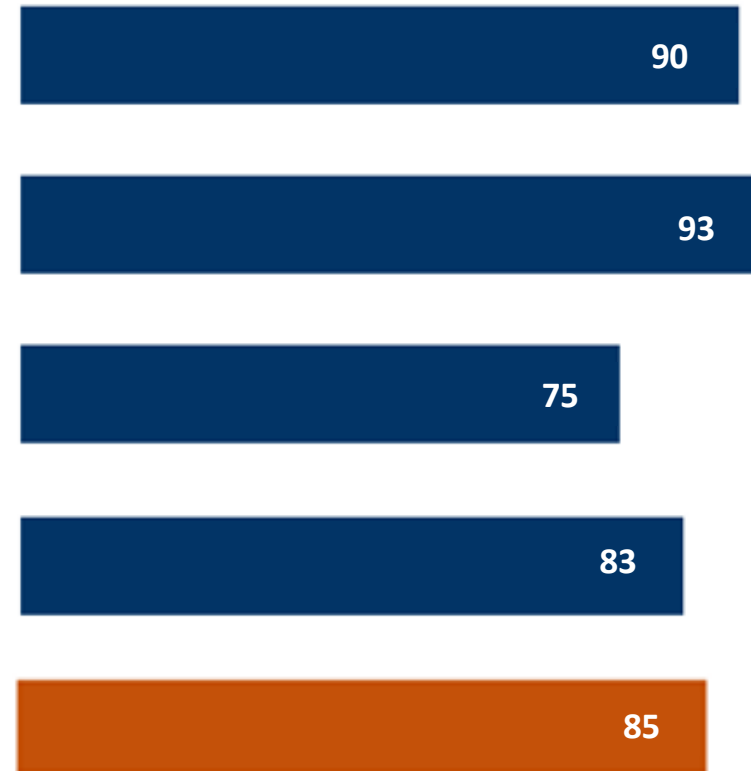

Staff are provided with the appropriate personal protective equipment (PPE)

Staff use PPE appropriately

Staff clean their hands before and after helping residents with personal care

**Composite Measure Average**

## Average % Positive Response

# Protection From Workplace Hazards

“Staff are well trained on the basics. Washing hand procedures, face covering, wearing gloves and other etiquette.”

“[There are] poor procedures with active COVID. Management needs to step up and frequently educate staff and make sure they are aware of new cases and that they are wearing proper [PPE] when caring for positive patients.”

# Supervisor Support for Workplace Safety

## Average % Positive Response

My supervisor encourages staff to report their concerns about workplace safety

80

My supervisor listens to staff ideas and suggestions about workplace safety

74

My supervisor can be trusted to do the right thing to keep staff safe

80

**Composite Measure Average**

78

# Supervisor Support for Workplace Safety

“I do not feel comfortable going to my superiors for help because ... in the past, nothing has been done regarding issues until something big happens resulting in staff or patient injury.”

# Management Support for Workplace Safety

## Average % Positive Response

The actions of management show that the safety of staff is a top priority

64

Management provides adequate resources to ensure the safety of staff

69

Management takes action when staff report concerns about workplace safety

69

**Composite Measure Average**

67

# Management Support for Workplace Safety

“We need new management all the way around. They stay in [their] offices while you are on the floor drowning.”

“Upper management does not seem to take staff [concerns]/complaints seriously. Staff [are] treated differently depending on who they are.”

# Addressing Inappropriate Resident Behavior Toward Staff

## Average % Positive Response

Staff are trained to identify triggers or situations that could lead to inappropriate resident behavior toward staff

69

Staff are trained on how to de-escalate or calm down situations when residents are agitated or upset

68

There are good procedures to keep staff safe from inappropriate resident behavior

63

**Composite Measure Average**

66

# Addressing Inappropriate Resident Behavior Toward Staff

“I have never received formal training on de-escalation of situations, or training for residents with behaviors.”

“Staff safety doesn't seem to matter. Violent residents are just [accepted] as a part of being a nurse. There are no staff resources for dealing with abusive or violent [residents]. We are expected to accept the treatment and nothing is done about it.”

# Interactions Among Staff

## Average % Positive Response

Staff are rude to other staff in this nursing home

47

Staff bully other staff in this nursing home

66

**Composite Measure Average**

57

# Interactions Among Staff

“There are consistent issues with certain staff members being rude to residents and fellow staff. Nothing is done to help this. It makes coming to work hard sometimes.”

“Some staff are excessively rude to others.”

# Workplace Safety Reporting

Staff can report their concerns about workplace safety without fear of negative consequences.

**Average % Positive Response**  
(Strongly Agree/Agree)

71

# Workplace Safety Reporting

“We [can’t] report [issues] because of feared retaliation and upper management are super big on retaliation. [We] feel as if we are not important here as well as not listened to.”

# Work Stress/Burnout

I have no symptoms of burnout.

34%

I am under stress, and don't always have as much energy as I did, but I don't feel burned out.

33%

I am beginning to burn out and have one or more symptoms of burnout, e.g., emotional exhaustion.

21%

The symptoms of burnout that I am experiencing won't go away. I think about work frustrations a lot.

10%

I feel completely burned out. I am at the point where I may need to seek help.

2%

67%  
Experienced no  
symptoms of  
burnout

33%  
Experienced  
symptoms of  
burnout

# Work Stress/Burnout

“We are getting burnt out on a job we were so passionate about because of management and understaffing problems.”

“Staff are burned out and tired, so this means resident care is not what it should be.”

# Overall Rating on Workplace Safety

# Overall Rating on Workplace Safety

“Our nursing home is well organized [and a] perfect place for the residents as well as employees.”

“I feel safe in my [workplace]. We give good care but could be better at times! I like my job here [and] the residents and staff I work with.”

# Reliability and Construct Validity

- Reliability
  - ▶ All composite measures had acceptable
    - internal consistency reliability (Cronbach's alpha  $\geq 0.70$ )
    - site-level reliability ( $\geq 0.70$ )
- Confirmatory factor analysis
  - ▶ Acceptable factor loadings and goodness-of-fit indices (CFI, RMSEA, SRMR)
- Statistically significant correlations among most of the composite measures and single items

# Final Workplace Safety Supplemental Item Set

- Now available on the AHRQ SOPS website:
  - ▶ Workplace Safety Supplemental Item Set for the Nursing Home Survey in English and Spanish
  - ▶ 2022 Pilot Study Results

# Action Planning Tool

1. Identifying areas to improve
2. Planning your improvement initiative
3. Communicating your action plan

| Action Plan for the AHRQ Surveys on Patient Safety Culture (continued)          |                                    |
|---|------------------------------------|
| <b>2. Planning Your Improvement Initiative</b>                                  |                                    |
| <b>2a. What initiative will you implement?</b>                                  |                                    |
| <br><br><br><br><br>  |                                    |
| <b>2b. What resources will you need?</b>  |                                    |
| Types of staff and required time and estimated costs:                           |                                    |
| <br><br><br>  |                                    |
| Supplies, materials, equipment, and other resources needed and estimated costs: |                                    |
| <br><br><br>  |                                    |
| <b>2c. What are possible barriers and how can you overcome them?</b>            |                                    |
| Barriers  | Strategies for Overcoming Barriers |
| 1.  | 1.                                 |
| 2.  | 2.                                 |

# Improving Patient Safety Resource Lists

## Improving Workplace Safety in Nursing Homes: A Resource List for Users of the AHRQ Workplace Safety Supplemental Item Set

### Purpose

This document includes references to websites and other publicly available resources nursing homes can use to improve workplace safety for staff. While this resource list is not exhaustive, it is designed to give initial guidance to nursing homes seeking information about workplace safety initiatives.

### How To Use This Resource List

Resources are listed in alphabetical order, organized by the Surveys on Patient Safety Culture™ (SOPS®) composite measures assessed in the Agency for Healthcare Research and Quality (AHRQ) [Workplace Safety Supplemental Item Set](#) for the SOPS [Nursing Home Survey](#), followed by general resources. For easy access to the resources, keep the file open rather than printing it in hard copy, because many of the website URLs are hyperlinked.

**Feedback:** To provide feedback or suggestions for resources you would like added to the list or if you have questions, email [SafetyCultureSurveys@westat.com](mailto:SafetyCultureSurveys@westat.com).

### Composite Measure 1. Protection From Workplace Hazards

1. **CDC's Core Infection Prevention and Control Practices for Safe Healthcare Delivery in All Settings**

[https://www.cdc.gov/infectioncontrol/guidelines/core-practices/index.html?CDC\\_AA\\_refVal=https%3A%2F%2Fwww.cdc.gov%2Fhicpac%2Frecommendations%2Fcore-practices.html](https://www.cdc.gov/infectioncontrol/guidelines/core-practices/index.html?CDC_AA_refVal=https%3A%2F%2Fwww.cdc.gov%2Fhicpac%2Frecommendations%2Fcore-practices.html)

This document describes a core set of infection prevention and control practices that are required in all healthcare settings. The practices were selected from existing Centers for Disease Control and Prevention (CDC) recommendations and represent fundamental standards of care that are not expected to change based on emerging evidence or to be regularly altered by changes in technology or practices. In addition, they are applicable across healthcare settings.

2. **CDC Train Module 4 – Infection Surveillance**

<https://www.train.org/cdctrain/course/1081802/> (requires free account setup and login)

This guide provides ideas and lessons learned to improve the well-being of the healthcare workforce, including actions that individuals, leaders, and organizations can take to support the healthcare workforce during the COVID-19 pandemic and beyond.

3. **Hand Hygiene Technical Reference Manual**

[https://cdn.who.int/media/docs/default-source/integrated-health-services-\(ihs\)/hand-hygiene/monitoring/9789241598606\\_eng.pdf?sfvrsn=f0870e7e\\_11](https://cdn.who.int/media/docs/default-source/integrated-health-services-(ihs)/hand-hygiene/monitoring/9789241598606_eng.pdf?sfvrsn=f0870e7e_11)

This manual has been developed for use in any healthcare facility to assist healthcare workers to implement improvements in their facility as part of a multimodal strategy and in accordance with the World Health Organization (WHO) Guidelines on Hand Hygiene in Health Care.
