

# *Upcoming Comparative Database*

- **What is the Medical Office SOPS Comparative Database?**
    - Will serve as a central repository for medical offices to voluntarily submit their survey data
    - An important resource for comparing your results with other medical offices in support of patient safety culture improvement
    - Participating medical offices will receive a free medical office survey feedback report
    - A Comparative Database Report (similar to the Hospital report ) summarizing the results will be produced and available on the AHRQ Web site in 2012
  - **When is data submission open?**
    - September 15 – October 15, 2011
  - More information and submission instructions will be posted on the AHRQ Web site
-
